

# COMETA - Introduction of Practices

## Tutoring-Personal level educational plan

If you are curious about what it looks like to commit to a personalized educational approach that prioritizes learners voice, needs and aim and provides meaningful opportunities: read these practices.

It is time to transforming existing educational systems into more effect personalized and innovative learning experience. The personalization of learning is not just pretend on student have choice in what they are going to learn rather it is building environments in which teacher have the time and skills to know their students and can just the pace, the material and the surrounding so they can meet the needs of all learners.

This practice is a step-by-step guide for diagnosing, planning, executing, evaluating, and refining educational plan. It is best practice for tutor, teacher, VET provider into clear advice and ready-to -use tools.

Let's talk about it.
