

San Viator - Introduction of Practices

Empowering Young Individuals with Special Needs through International Mobility: The Inclusive Practice Developed by Centro San Viator Sopena

This exceptional practice embraces the transformative power of international mobility for young individuals with special needs. Through meticulous planning, personalized learning plans, mentoring, evaluation, and collaboration, this practice ensures a transformative experience that promotes inclusion and enhances future employability.

At the heart of this approach is a robust pre-departure planning process, involving extensive consultations with individuals and their families to understand their specific needs and goals. The center collaborates with stakeholders to design personalized learning plans and selects inclusive partner organizations and host institutions. Mentoring and support are provided throughout the journey, helping participants overcome challenges and capitalize on opportunities. Regular evaluations and feedback contribute to refining and enhancing the practice.

Ultimately, this practice empowers young individuals with special needs, broadening their horizons, developing intercultural competence, and increasing their future employability. This innovative approach fosters a more inclusive and diverse society, and the center invites educators, employers, and stakeholders to join their mission of empowerment.
